

Exercise

Always check your glucose level before, during and after exercise.

Always carry a drink

Consider reducing your insulin before or after exercise.

Wear or carry ID saying you have Type 1 diabetes or have your phone with you if you have one.

You will need more fluids if glucose is high.

Carry A Snack

- Cereal Bars**
- Cake Bars**
- Fruit**
- Jaffa Cakes**

You can find more information in the **sport and exercise section** of the DigiBete website and app and more resources can be found on the age pages.
