Find the words below in the Word Search

Diabetes

This means the body can't produce enough insulin to control the amount of sugar in the body.

Pump

Instead of needles some children use an insulin pump.

Blue Balloon

Glucose

This is a name used for sugar that has been eaten and is turned into glucose for energy.

Jelly Baby

This tasty treat is also used as medicine to help children when sugar levels in the body are too low.

Sensor

A sensor is used by some children to help monitor their glucose levels.

Insulin

This is a hormone that acts like a key and takes the energy from your food and unlocks the cell so this energy can enter and make you strong and healthy.
